

SARANATHAN COLLEGE OF ENGINEERING

DEPARTMENT OF MECHANICAL ENGINEERING

Guest Lecture on “Nanotechnology”

The Department of Mechanical Engineering organized a guest lecture on “Nanotechnology” on 11th March 2017. Dr.N.L.Parthasarathi, Scientific Officer E, Metal Forming and Tribology Section, Indira Gandhi Centre for Atomic Research (IGCAR), Kalpakkam was the invited guest. He delivered a lecture on two different topics, one was “Nano materials and coatings in industrial applications: A tribology perspective” and the other one was “Sustainable product design and conceptualization”. His lecture was very informative and thought provoking making the session very interactive. He also addressed the research scope in the field of Nanotechnology and encouraged the students to take up projects in this area. The students were very much benefitted by his inspiring lecture.
