

ICE students crack prestigious Industrial CLAD certification through M/s. National Instruments

- The Certified LabVIEW Associate Developer (CLAD) Certification indicates a broad working knowledge of the LabVIEW environment, a basic understanding of coding and documentation best practices, and the ability to read and interpret existing code
- National Instruments (NI) offers the Certified LabVIEW Associate Developer (CLAD) exam using either LabVIEW or LabVIEW NXG
- This is an international certification course offered by NI who has developed automated test and automated measurement systems that help engineers solve the world's toughest challenges for more than 40 years
- The pass percentage to get CLAD certified is 70% and above, meaning the certified students possess immense knowledge in LabVIEW
- The possession of CLAD certification would give the person a competitive advantage over other candidates within the approach of recruitment
- CLAD exams, which mainly focuses on labVIEW, is one of the most widely used technology in various Defense, Aerospace, Manufacturing, Product Design and Automation industries
- CLAD certification is valid for 2 years from date issued
